FrontEnd Developer

- FrontEnd developer with 3+ year of experience building responsive,high performance web application using react.js,java script and modern UI frame work.
- Strong focus on user Experience, performance,clear and scalable code.

Skills

Web Technologies: HTML, CSS, JavaScript (ES6), TypeScript

UI Frameworks & Styling: Bootstrap, Ant Design (antd), Material UI, Tailwind CSS

Frontend Libraries & Frameworks: React.js, Next.js, Redux, Redux Toolkit, Redux Thunk, Context API

Backend & API: Node.js, Express.js, REST APIs

Databases: MySQL, MongoDB

Testing Tools: Playwright.js

DevOps & Deployment & Tools: Git, GitHub, Vercel, Netlify, VS Code, JIRA, Postman

Soft Skills: Problem-Solving Skills, Communication Skills, Teamwork Collaboration, Adaptability

Education

Unnamalai Institute of Technology (Anna University)

2018 – 2022

B.E. in Computer Engineering

GPA: 8.1/10

Professional Experience

Mitrahsoft Solutions Private Limited, Associate Software Developer

May 2022 – Present

- Spearheaded the development of responsive web applications using React and Next.js, enhancing user engagement and satisfaction.
- Led performance optimization, code reviews, and collaborated cross-functionally to deliver scalable, user-centric features on time.

Projects

Presentation Related Application (Automation Tester)

mar 2025 – present

Technologies: Playwright, TypeScript

- Created scalable end-to-end test suites for a web and desktop presentation platform, ensuring high functional accuracy and user reliability.

Conference Management Application (Software Developer)

Mar 2024 – feb 2025

Technologies: React, React-Redux, Ant Design

- Developed a web app to manage academic and enterprise conferences, including document access and e-commerce features for materials.

High-Performance Reporting Application (Software Developer)

Jun 2023 – Feb 2024

Technologies: Next.js, Tailwind CSS, TypeScript, Node.js, Express.js, MongoDB

- Built a reporting interface using virtualization to render complex nested JSON efficiently, enabling smooth navigation of large-scale data and exports.

Weight Loss Application (Software Developer)

Aug 2022 – may 2023

Technologies: React, React Native, Bootstrap, Redux-Thunk

- Built a cross-platform app for weight loss communities with features like content posting, real-time chat, social login, and an admin panel for user access control.

Roles Responsibilities

- Improved application architecture and code standards for better scalability and maintainability.
- Trained freshers in React.js and Advanced JavaScript, accelerating team onboarding.
- Adopted new technologies quickly to meet dynamic project demands.
- Mentored junior developers, ensuring consistent code quality and productivity.

Languages

- Tamil, English, Hindi
